Bio:

Mika Moulton will inspire, motivate and define the true essence of moving forward. Mika’s journey began in 1995 when her 10-year-old son, Christopher, was abducted and brutally murdered by a repeat offender. She was able to gather the pieces of her shattered heart and find a way to organize the chaos. She began speaking out to help others maneuver the abundant information thrown at them in a catastrophic situation. She has appeared on national and local television and radio shows, all with the desire that Christopher’s abduction will serve as a catalyst to prevent further crime against children.
